SATURDAY, SEPTEMBER 12, 2020
Cattlemen's Livestock Market, Galt, CA • 12:30 p.m.

Saturday,
September 12, 2020

Lunch at 11:00 a.m.
Bull Sale at Noon

SALE DAY PHONES:

John Dickinson (916) 806-1919 • Jake Parnell (916) 662-1298
Cattlemen's Livestock Market (209) 745-1515

AUCTIONEER:

Rick Machado
(805) 501-3210
Se habla español.

SALE MANAGEMENT:

PO Box 709
Auburn, CA 95604
E-mail: info@parnelldickinson.com
Web: www.parnelldickinson.com
John Dickinson(916) 806-1919
Jake Parnell.....(916) 662-1298
Luke Parnell(805) 431-1267

LIVESTOCK REPRESENTATIVES:

Jake Pickering, American Angus Association
Matt Macfarlane, *California Cattleman Magazine*
Logan Ipsen, *Western Livestock Journal*

HOTEL ACCOMMODATIONS:

Comfort Inn & Suites • (209) 744-7800 • Twin Cities/Hwy. 99 Exit
Ask for the Cattlemen's Livestock Market special rate.

SALE SITE:

The sale will be held at the Cattlemen's Livestock Market in Galt, CA.

HOSPITALITY:

Drinks and refreshments will be available throughout the day,
and a complimentary lunch will be served at Noon.

HERD HEALTH:

All bulls in the sale have been Anaplas vaccinated and have
been tested free of BVD persistent infection.

SEMEN TESTING:

All bulls selling have passed a rigid breeding soundness and
fertility examination in the last 30 days performed by JLG
Enterprises, Inc., Oakdale, CA.

SUPPLEMENTAL INFORMATION:

A supplemental sheet will be available sale day with up to date
performance information on the Fall Yearling Bulls and current
breeding information on the females. For a copy of this information
prior to the sale, please contact John Dickinson at (916) 806-
1919. This sheet and any announcements from the block will take
precedence over the printed material in the sale book.

LIVESTOCK MORTALITY INSURANCE:

Mortality insurance on your purchases will be available through
Livestock Marketing Insurance Agency. Arrangements can be
made at settlement or through Jake Parnell (916) 662-1298.

DELIVERY:

Free delivery to California and adjoining states. All deliveries are
made at the buyer's risk. Bring your trailer on sale day and take
\$50 off your purchase price for every bull hauled home on sale
day.

INSPECTION OF CATTLE:

Cattle can be viewed any time before the sale at Snyder
Livestock, Yerington, NV. Sale cattle will be available for
viewing at the Cattlemen's Livestock Market in Galt, CA on
Friday, September 11.

TERMS AND CONDITIONS:

Any announcements made from the block will take precedence over
statements in the printed material. Cattle will sell under the suggested
Terms and Conditions of the American Angus Association (http://www.angus.org/Pub/suggested_sale_terms.pdf). A copy of those terms will
be available in the sale day office.

Terms of the sale are cash, and all purchases must be settled for SALE
DAY unless prior arrangements have been made. Cattle not paid within
30 days of sale will be assessed a 2% interest charge per month.

DISCLAIMER:

The Cattlemen's Livestock Market, Arellano Bravo Angus, and
Parnell Dickinson, Inc. assume no liability for accidents or
injury that may occur. Attend the sale at your own risk.

(916) 996-9855

Welcome to the 13th annual ARELLANO BRAVO ANGUS sale.

We are incredibly fortunate to have so many of you support our program, and kindly welcome those who are new to it. Our sale is more than an auction; it is a representation of the hard work, dedication, and passion that we have put into bringing you the highest quality in cattle production. We strive to maintain a herd of females with a strong foundation of maternal traits, and this year we have injected some of the breed's high performance sires such as Baldrige 38 Special, LD Capitalist 316, Jindra Blackout, VAR Legend 5019 and VAR Rubicon 5414. Consistency and uniformity are goals we build toward and we have continued to use embryo transfer to provide you with more full and half-brothers to achieve this. On behalf of myself and my family, we thank you for your confidence in us and hope to see you September 12, 2020.

We are pleased to have Dennis Lopez and his family with Diablo Valley Angus back to our sale this year. Dennis has an outstanding set of fall bulls that are right out of the top of his program. He has raised some of the top gaining Angus cattle in California for a number of years, and we are pleased with the outstanding set of bulls he brings here every year.

If you missed our sale last year, we encourage you to come see our top-notch production in action. There is no obligation at all, but we guarantee great cattle, delicious food, and the best company. The ARELLANO BRAVO family hopes to see you all at CLM.

Sincerely,
Adhemar Arellano

**PARNELL
DICKINSON**

P.O. Box 709 | AUBURN, CA 95604 | WWW.PARNELLDICKINSON.COM
JOHN 916.806.1919 | JAKE 916.662.1298 | LUKE 805.431.1267

On behalf of Adhemar Arellano and his family, we would like to welcome you back to the 13th Annual Arellano Bravo Production Sale. Arellano Bravo Angus is devoted to traditional, functional Angus bloodlines as the female base in their cowherd. The set of range bulls available on September 12th are multi-functional tools that can provide value to your herd and subsequent calf crop on many levels. We will again have a select set of late Fall born Two Year-old bulls that were simply too young for last year's event. Age-advantaged, virgin bulls like this are a rare commodity, so check out those lots on the inside back cover page.

The offering of fall bulls from Diablo Valley Angus will be something to go through in Galt. Dennis Lopez has always brought the top end of his production, and this year's offering is extremely deep. We are also pleased to have a select set of spring-born long yearlings as well as some fall yearling bulls from Lee Nobmann and Morgon Patrick at Dixie Valley Angus. They have secured some of the top donor females in the country, and many of these bulls are direct products of their ET program.

Arellano Bravo Angus also looks to continue the tradition of quality and customer service. As before, you will see every bull comes with complete performance information including genetic predictors for performance and carcass, individual weight information, and selection indexes that allow you make genetic progress over a number of traits with just one value to look at in the sale book. Adhemar and his family have increased the number of ET bulls in their program and the sire groups are much larger for your sorting.

Once again, we invite you to join us on Saturday, September 12, 2020 at Cattleman's Livestock Market (CLM), Galt, CA for the Annual Arellano Production Sale. If there is anything we can assist you with prior to the sale please contact John Dickinson at (916) 806-1919 or Jake Parnell at (916) 662-1298.

We look forward to seeing you in Galt!

John, Jake & Luke

Parnell Dickinson, Inc.

American Angus Association Selection Tools

Expected Progeny Difference (EPD), is the prediction of how future progeny of each animal are expected to perform relative to the progeny of other animals listed in the database. EPDs are expressed in units of measure for the trait, plus or minus. Interim EPDs may appear on young animals when their performance has yet to be incorporated into the American Angus Association National Cattle Evaluation (NCE) procedures. This EPD will be preceded by an “I”, and may or may not include the animal’s own performance record for a particular trait, depending on its availability, appropriate contemporary grouping, or data edits needed for NCE.

GROWTH

Calving Ease Direct (CED), is expressed as a difference in percentage of unassisted births, with a higher value indicating greater calving ease in first-calf heifers. It predicts the average difference in ease with which a sire’s calves will be born when he is bred to first-calf heifers.

Birth Weight EPD (BW), expressed in pounds, is a predictor of a sire’s ability to transmit birth weight to his progeny compared to that of other sires.

Weaning Weight EPD (WW), expressed in pounds, is a predictor of a sire’s ability to transmit weaning growth to his progeny compared to that of other sires.

Yearling Weight EPD (YW), expressed in pounds, is a predictor of a sire’s ability to transmit yearling growth to his progeny compared to that of other sires.

MATERNAL

Maternal Milk EPD (Milk), is a predictor of a sire’s genetic merit for milk and mothering ability as expressed in his daughters compared to daughters of other sires. In other words, it is that part of a calf’s weaning weight attributed to milk and mothering ability.

CARCASS

The genetic evaluation produces a single set of EPDs for carcass weight, marbling score, Ribeye area and fat thickness. The units of measure are in carcass trait format and analyzed on an age-constant basis.

Carcass Weight EPD (CW), expressed in pounds is a predictor of the differences in hot carcass weight of a sire’s progeny compared to progeny of other sires.

Marbling EPD (Marb), expressed as a fraction of the difference in USDA marbling score of a sire’s progeny compared to progeny of other sires.

Ribeye Area EPD (RE), expressed in square inches, is a predictor of the difference in ribeye area of a sire’s progeny compared to progeny of other sires.

Fat Thickness EPD (Fat), expressed in inches, is a predictor of the differences in external fat thickness at the 12th rib (as measured between the 12th and 13th ribs) of a sire’s progeny compared to progeny of other sires.

\$VALUE INDEXES

\$Value indexes, are multi-trait selection indexes to assist beef producers by adding simplicity to genetic selection decisions. \$Values are reported in dollars per head, where a higher value is more favorable. The \$Value is an estimate of how future progeny of each sire are expected to perform, on average, compared to progeny of other sires in the database if the sires were randomly mated to cows and if calves were exposed to the same environment.

Maternal Weaned Calf Value (\$M), an index, expressed in dollars per head, predicts profitability differences from conception to weaning with the underlying breeding objective assuming that individuals retain their own replacement females within herd and sell the rest of the cull female and all male progeny as feeder calves. The model assumes commercial producers will replace 25% of their breeding females in the first generation and 20% of their breeding females in each subsequent generation. Traits included are as follows: calving ease direct, calving ease maternal, weaning weight, milk, heifer pregnancy, docility, mature cow weight, claw set and foot angle.

Weaned Calf Value (\$W), an index value expressed in dollars per head, is the expected average difference in future progeny performance for pre-weaning merit. \$W includes both revenue and cost adjustments associated with differences in birth weight, weaning direct growth, maternal milk, and mature cow size.

Beef Value (\$B), an index value expressed in dollars per head, is the expected average difference in future progeny performance for post-weaning and carcass value compared to progeny of other sires.

Combined Value (\$C), expressed in dollars per head, is an index which includes all traits that make up both Maternal Weaned Calf Value (\$M) and Beef Value (\$B) with the objective that commercial producers will replace 20% of their breeding females per year with replacement heifers retained within their own herd. The remaining cull heifer and steer progeny are then assumed to be sent to the feedlot where the producers retain ownership of those cattle and eventually sell them on a quality-based carcass merit grid. Expected progeny differences (EPDs) directly influencing a combined index: calving ease direct (CED) and maternal (CEM), weaning weight (WW), yearling weight (YW), maternal milk (Milk), heifer pregnancy (HP), docility (DOC), mature cow weight (MW), foot angle (Angle), claw set (Claw), dry matter intake (DMI), marbling (Marb), carcass weight (CW), ribeye area (RE) and fat thickness (Fat).

YOU'VE DONE THE WORK.

Get paid for it.

You've invested in good genetics.
You've kept all the records.

AngusLinkSM combines USDA Process Verified Programs with a Genetic Merit Scorecard that gives buyers confidence in your calves.

From age and source verification to cattle care and handling, you choose which programs make the most sense for you.

Group Age & Source: Verifies the group age and source of the cattle

Angus-Sired Genetics: Verifies calves are sired by 100% registered Angus bulls

Non-Hormone Treated Cattle: Verifies cattle have never received hormones

NeverEver³: No antibiotics, no hormones, no animal by-products ever

Cattle Care & Handling: Documents proper management, demonstrates quality commitment

Calf Management: Documents preventative health program

Genetic Merit ScorecardSM: Measures the genetic merit of calves for feedlot performance and carcass merit.

**Optional, not part of the PVP claims*

Easy and affordable, our customer service representatives walk you through the process.

Bravo 6013 Payweight 9049 - Lot 10

Dennis Lopez and his family have been raising registered Angus Cattle since 1958 in the western foothills of California around Mount Diablo. The cowherd is developed on native feed conditions and non-pampered.

Dennis has been a longtime consignor to the Cal Poly Bull Test Sale and Snyder "Bulls for the 21st Century" Sale in Nevada where he has topped every division multiple times. We are excited to have this excellent set of performance bulls in this year's sale.

Diablo Blackout 9117 - Lot 23

Dixie Valley is a progressive seedstock operation developed from the high-quality commercial sector of Nobmann Cattle Company. This program has never wavered from utilizing high-quality, proven genetics that not only thrive in the Northern California terrain, but also carry a tremendous amount of end product merit designed to raise premiums on calf crops. They have identified and secured some of the breed-leading genetics for carcass weight and marbling, and through extensive management and ET work, have been able to multiply these genetics in volume.

DIXIE VALLEY

Sired by performance standout Hoover No Doubt, this bull is a full brother to Sterling Pacific 904, the \$42,500 top-selling bull from the 2020 Snyder Livestock Bull Test Sale in Nevada. He is also a full brother in blood to the \$110,000 Baldrige Pappy, second high-seller from the 2019 Baldrige Sale in Nebraska. Dam of this bull is a direct daughter of Baldrige Isabel Y69, one of the highest income producing females in breed history that has produced numerous AI sires including the \$580,000 Baldrige Colonel C251. This is a deep-sided, square hipped bull that pushes outstanding growth inside the top 1% of the breed.

Here is a powerful Deluxe son that ranks in the top 1% of the entire breed for WW EPD with a top 2% YW rank as well. He has elite carcass including a top 4% CW and top 15% Marbling EPD that when combined with his growth put him in the top 10% for \$Beef Value. His pedigree is stacked with proven cow families that allow him to rank in the top 25% from \$Maternal Index, thus pushing his \$Combined Value into the top 4% of the breed as well.

TWO-YEAR-OLD BULLS

The following bulls were too young for last year's sale. They have been developed slow and were turned out on the dry this past spring at Snyder Livestock in Nevada. They are all VIRGIN bulls that are semen tested, trich tested, and come with the same vaccination schedule as the rest of the offering. They sell commercially with no registration papers.
