ARELLANO BRAVO ANGUS

With Guest **DIABLO VALLEY ANGUS**

SATURDAY, SEPTEMBER 14, 2024

Cattlemen's Livestock Market, Galt, CA • 12:00 PM

*Production
Sale*

AUCTIONEER:

Jake Parnell
(916) 662-1298

SALE MANAGEMENT:

PO Box 709
Auburn, CA 95604
E-mail: info@parnelldickinson.com
Web: www.parnelldickinson.com

John Dickinson (916) 806-1919
Jake Parnell (916) 662-1298
Luke Parnell (805) 431-1267

LIVESTOCK REPRESENTATIVES:

Landon Andrews, American Angus Association
Matt Macfarlane, *California Cattleman Magazine*
Jared Patterson, *Western Livestock Journal*

SALE SITE:

The sale will be held at the Cattlemen's Livestock Market in Galt, CA.

HOTEL ACCOMMODATIONS:

Comfort Inn & Suites, Galt, CA • (209) 744-7800
Ask for the Cattlemen's Livestock Market rate
Holiday Inn Express, Elk Grove, CA • (916) 478-9000
Hilton Garden Inn, Elk Grove, CA • (916) 691-1900

HOSPITALITY:

Drinks and refreshments will be available throughout the day. Complimentary Ribeye Steak Lunch will be served at 11:00 AM.

SEMEN TESTING:

All bulls selling have passed a rigid breeding soundness and fertility examination in the last 30 days performed by JLG Enterprises, Inc., Oakdale, CA.

SUPPLEMENTAL INFORMATION:

A supplemental sheet will be available sale day with up-to-date performance information on the Fall Yearling Bulls and current breeding information on the females. For a copy of this information prior to the sale, please contact John Dickinson at (916) 806-1919. This sheet and any announcements from the block will take precedence over the printed material in the sale book.

INTERNET BROADCAST AND VIDEOS OF SALE CATTLE:

Internet bidding and videos of the sale cattle are available at LiveAuctions.TV.

If you have questions, contact John Dickinson at (916) 806-1919 or Customer Support at (682) 816-4900.

DISCLAIMER:

The Cattlemen's Livestock Market, Arellano Bravo Angus, and Parnell Dickinson, Inc. assume no liability for accidents or injury that may occur. Attend the sale at your own risk.

HERD HEALTH:

All bulls in the sale have been Anaplasma vaccinated and have been tested free of BVD persistent infection.

LIVESTOCK MORTALITY INSURANCE:

Mortality insurance on your purchases will be available through Livestock Marketing Insurance Agency. Arrangements can be made at settlement or through Jake Parnell (916) 662-1298.

DELIVERY:

Free delivery to California and adjoining states. All deliveries are made at the buyer's risk. Bring your trailer on sale day and take \$50 off your purchase price for every bull hauled home on sale day.

INSPECTION OF CATTLE:

Cattle can be viewed any time before the sale at Snyder Livestock, Yerington, NV. Sale cattle will be available for viewing at the Cattlemen's Livestock Market in Galt, CA on Friday, September 13.

TERMS AND CONDITIONS:

Any announcements made from the block will take precedence over statements in the printed material. Cattle will sell under the suggested Terms and Conditions of the American Angus Association (http://www.angus.org/Pub/suggested_sale_terms.pdf). A copy of those terms will be available in the sale day office. Terms of the sale are cash, and all purchases must be settled for SALE DAY unless prior arrangements have been made. Cattle not paid within 30 days of sale will be assessed a 2% interest charge per month.

EPDs contained in the hard copy of this sale book were current as of print date. Digital versions of this sale book can be viewed online at www.angus.org and will have EPDs updated every Friday with the exception of EPD references in footnotes and photos. Any PDF downloads from the website will contain EPDs current as of the date downloaded. References: American Angus Association®, AHIR®, AngusLinkSM, CAB®, Pathfinder®.

Welcome to the 17th Annual Sale

ARELLANO BRAVO ANGUS

Welcome to the 17th Annual Sale for Arellano Bravo Angus. Our family is beyond grateful for the support and encouragement we have received, and we have worked extremely hard to bring you our highest quality set of bulls to date.

We have expanded our herd by adding some elite new donors to raise the level of our genetic base. Our family developed a strategic plan to set a new standard of genetic potential. Maintaining our core fundamentals of maternal strength balanced with optimal calving ease and aggressive growth, we are excited to show you the largest offering of VAR Conclusion 0234 sons available anywhere in the country. We mated him to our leading donor females, and the results have exceeded our expectations including the current #1 son of VAR Conclusion 0234 for both \$Beef Value and \$Combined Value who sells as Lot 16. We eagerly await your appraisal and are confident these bulls can improve the genetics and physical traits of any herd they are welcomed into.

We look forward to seeing you Saturday, September 14, 2024. While there is no obligation, as always, we guarantee great cattle, delicious food, and the best company.

Sincerely,

Adhemar Arellano

Arellano Family

On behalf of Adhemar Arellano and his family, we would like to welcome you back to the 17th Annual Arellano Bravo Production Sale. The Arellano Bravo family has spent considerable time and resources upgrading their cow herd over the past three years. They have added some elite females into the donor arsenal, and I think you will appreciate the resulting set of ET progeny in the offering this year. Every bull selling has been DNA tested and comes with complete genomic enhanced predictors (G-EPD). As always, they have submitted complete performance records for ultrasound, individual weight information, and phenotypic measurements. They additionally have selection indexes (\$Values) that allow you to make genetic progress over a number of traits with just one value to look at in the sale book. Updated information on the fall yearlings will be available on sale day.

The offering of fall bulls from Diablo Valley Angus will be something to go through in Galt as well. Dennis Lopez has always brought the top end of his production, and this year's offering is extremely deep.

Another feature you won't want to miss this year are the registered Angus females. The Arellano family has dug into their herd to offer an excellent set of fall-calving 2-year-old females as well and 20+ spring bred heifers that are AI safe to the \$30,000 VAR Home Town 1026! This is an excellent set of females that you can find on pages 28-33 in this book.

Once again, we invite you to join us on Saturday, September 14, 2024, at Cattlemen's Livestock Market (CLM), Galt, California, for the Annual Arellano Production Sale. If there is anything we can assist you with prior to the sale, please contact John Dickinson at (916) 806-1919 or Jake Parnell at (916) 662-1298.

We look forward to seeing you in Galt!

John Dickinson
916-806-1919

American Angus Association Selection Tools

Expected Progeny Difference (EPD), is the prediction of how future progeny of each animal are expected to perform relative to the progeny of other animals listed in the database. EPDs are expressed in units of measure for the trait, plus or minus. Interim EPDs may appear on young animals when their performance has yet to be incorporated into the American Angus Association National Cattle Evaluation (NCE) procedures. This EPD will be preceded by an "I", and may or may not include the animal's own performance record for a particular trait, depending on its availability, appropriate contemporary grouping, or data edits needed for NCE.

PRODUCTION EPDs

Calving Ease Direct (CED), is expressed as a difference in percentage of unassisted births, with a higher value indicating greater calving ease in first-calf heifers. It predicts the average difference in ease with which a sire's calves will be born when he is bred to first-calf heifers.

Birth Weight EPD (BW), expressed in pounds, is a predictor of a sire's ability to transmit birth weight to his progeny compared to that of other sires.

Weaning Weight EPD (WW), expressed in pounds, is a predictor of a sire's ability to transmit weaning growth to his progeny compared to that of other sires.

Yearling Weight EPD (YW), expressed in pounds, is a predictor of a sire's ability to transmit yearling growth to his progeny compared to that of other sires.

Residual Average Daily Gain (RADG), expressed in pounds per day, is a predictor of a sire's genetic ability for postweaning gain in future progeny compared to that of other sires, given a constant amount of feed consumed.

Dry Matter Intake (DMI), expressed in pounds per day, is a predictor of difference transmitting ability for feed intake during the postweaning phase, compared to that of other sires.

Scrotal Circumference EPD (SC), expressed in centimeters, is a predictor of the difference in transmitting ability for scrotal size compared to that of other sires.

MATERNAL EPDs

Heifer Pregnancy (HP), is a selection tool to increase the probability or chance of a sire's daughters becoming pregnant as first-calf heifers during a normal breeding season. A higher EPD is the more favorable direction and the EPD is reported in percentage units.

Calving Ease Maternal (CEM), is expressed as a difference in percentage of unassisted births with a higher value indicating greater calving ease in first-calf daughters. It predicts the average ease with which a sire's daughters will calve as first-calf heifers when compared to daughters of other sires.

Maternal Milk EPD (Milk), is a predictor of a sire's genetic merit for milk and mothering ability as expressed in his daughters compared to daughters of other sires. In other words, it is that part of a calf's weaning weight attributed to milk and mothering ability.

MANAGEMENT EPDs

Docility (Doc), is expressed as a difference in yearling cattle temperament, with a higher value indicating more favorable docility. It predicts the average difference of progeny from a sire in comparison with another sire's calves. In herds where temperament problems are not an issue, this expected difference would not be realized.

CARCASS EPDs

Carcass Weight EPD (CW), expressed in pounds is a predictor of the differences in hot carcass weight of a sire's progeny compared to progeny of other sires.

Marbling EPD (Marb), expressed as a fraction of the difference in USDA marbling score of a sire's progeny compared to progeny of other sires.

Ribeye Area EPD (RE), expressed in square inches, is a predictor of the difference in ribeye area of a sire's progeny compared to progeny of other sires.

Fat Thickness EPD (Fat), expressed in inches, is a predictor of the differences in external fat thickness at the 12th rib (as measured between the 12th and 13th ribs) of a sire's progeny compared to progeny of other sires.

\$VALUE INDEXES

\$Value indexes, an economic selection index allows multiple change in several different traits at once pertaining to a specific breeding objective. The \$Value is an estimate of how future progeny of each sire are expected to perform, on average, compared to progeny of other sires if the sires were randomly mated to cows and if calves were exposed to the same environment. [More Info](#)

Maternal Weaned Calf Value (\$M), an index, expressed in dollars per head, predicts profitability differences from conception to weaning with the underlying breeding objective assuming that individuals retain their own replacement females within herd and sell the rest of the cull female and all male progeny as feeder calves. The model assumes commercial producers will replace 25% of their breeding females in the first generation and 20% of their breeding females in each subsequent generation. Traits included are as follows: calving ease direct, calving ease maternal, weaning weight, milk, heifer pregnancy, docility, mature cow weight, claw set and foot angle.

Beef Value (\$B), a terminal index, expressed in dollars per carcass, to predict profitability differences in progeny due to genetics for postweaning and carcass traits. This terminal index assumes commercial producers wean all male and female progeny, retain ownership of these animals through the feedlot phase and market these animals on a carcass grid. Traits included in the index are as follows: yearling weight, dry-matter intake, marbling, carcass weight, ribeye area and fat.

Combined Value (\$C), an index, expressed in dollars per head, which includes all traits that make up both Maternal Weaned Calf Value (\$M) and Beef Value (\$B) with the objective that commercial producers will replace 20% of their breeding females per year with replacement heifers retained within their own herd. The remaining cull heifer and steer progeny are then assumed to be sent to the feedlot where the producers retain ownership of those cattle and sell them on a quality-based carcass merit grid. Expected progeny differences (EPDs) directly influencing a combined index: calving ease direct (CED) and maternal (CEM), weaning weight (WW), yearling weight (YW), maternal milk (Milk), heifer pregnancy (HP), docility (DOC), mature cow weight (MW), foot angle (Angle), claw set (Claw), dry matter intake (DMI), marbling (Marb), carcass weight (CW), ribeye area (RE) and fat thickness (Fat).

ABOVE AVERAGE GOALS REQUIRE TARGETED BULLS

Aim High

The Targeting the Brand™ logo highlights registered Angus bulls with greater genetic potential to produce calves that meet the most challenging specifications of the *Certified Angus Beef®* brand.

Only 1 in 4 non-parent Angus bulls qualify.

Minimum Genetic Requirements

Marbling EPD (Marb)	+0.65
Dollar Grid Carcass Index (\$G)	+55.0

For more information on Targeting the Brand™ visit CABcattle.com.

MAKE YOUR CATTLE **STAND OUT**

You've made a significant investment in your genetics, but does the market recognize that? Stand out by differentiating your cattle with AngusLinkSM programs: AngusVerifiedSM and the Genetic Merit ScorecardSM. AngusVerified validates your calves are sired by registered Angus bulls and make your cattle stand apart from other black hides on sale day. The Genetic Merit Scorecard gives buyers the confidence they need to pay more for your quality calves.

Users of the AngusLink programs earn **\$13-15/CWT PREMIUMS** on average. Give us a call, and learn how to claim your competitive edge with AngusLink value-added programs.

AngusVerified and the Genetic Merit Scorecard are administered by IMI Global.

Here's an impressive herd sire prospect with excellent spread of a top 3% CED and top 5% Yearling Weight EPD. He's also in the top 4% of the breed for Marbling and when combined with his output levels, he has a top 10% Beef Index. His donor dam has an elite genetic profile and is most known for her first calf, Roseda Powerball23 F091, that went on to sire the \$200,000 EXAR Cover the Bases 0819B and the \$130,000 44 Hayday 008. This bull is massively built with added rib shape and internal dimension. He's big topped, square-hipped, yet still maintains an attractive profile and high quality look.

CONCLUSION is one of the top up-and-coming sires in the breed with an impressive phenotype and dominant genetic package. He meets calving-ease criteria with explosive growth in the top 1% of all sires for WW and YW EPD. He's also top 3% for Docility, top 30% Marbling, and top 10% REA. He weaned at 828 lbs. adjusted (117 ratio) and 1423 adj. yearling weight (113 ratio). We will use him throughout our entire program for years to come, and the daughters are looking equally impressive.

This is the #1 Conclusion son in the entire Angus breed for \$Beef and \$Combined Value. He complements his top 2% growth rankings with double-digit calving ease and an impressive suite of carcass EPDs that include top 1% CW, top 10% Marbling, top 1% Ribeye, and top 25% Fat. Across his management profile he offers top 15% Docility and top 25% Heifer Pregnancy EPD. He is deep sided with added length of body and a sound skeletal design. When combined with his elite genetics, this bull has the ability to add value in a wide range of production systems.

Cover The Bases was the \$200,000 high-selling bull at the 2022 Express Ranches Sale that has breed-leading Marbling. He currently has 122 progeny that have been scanned in 15 groups with an average %IMF ratio of 118, and 767 progeny that have been genomic tested to earn him the Number 3 Marbling score EPD among highly proven sires with a .45 or higher accuracy level. He is a moderate frame size bull with exceptional depth and volume.

BLACKSTONE was our pick from the 2020 Vintage Angus Bull Sale where he had excellent individual performance where he charted a 749 lb. adj. 205-day weight and 1411 lb. adjusted yearling weight. His progeny are performing just as well in our program where they collectively average 101 for weaning, 103 for ultrasound IMF and 100 for Ribeye. BLACKSTONE is a flush brother to the \$50,000 VAR Leverage 9225 at Grimmus Cattle Company.

BOMBER 9046 carries on the excellent calving ease of his sire where he has a top 3% CED and top 30% BW EPD. He maintains a top 10% breed rank for both WW and YW EPD and offers good Marbling with a top 1% Ribeye rank. His dam is a flush sister to VAR Rubicon 5414 and a maternal sister to many notable herd sires including the \$730,000 VAR Power Play 7018 and the \$350,000 VAR Conclusion 0234.

Dennis Lopez and his family have been raising registered Angus cattle since 1958 in the western foothills of California around Mount Diablo. The cow herd is developed on native feed conditions and non-pampered.

Dennis has been a longtime consignor to the Cal Poly Bull Test Sale and Snyder "Bulls for the 21st Century" Sale in Nevada where he has topped every division multiple times. We are excited to have this excellent set of performance bulls in this year's sale.

CONCLUSION is one of the top up-and-coming sires in the breed with an impressive phenotype and dominant genetic package. He meets calving-ease criteria with explosive growth in the top 1% of all sires for WW and YW EPDs. He's also top 3% for Docility, top 30% Marbling, and top 10% REA. He weaned at 828 lbs. adjusted (117 ratio) and 1423 adj. yearling weight (113 ratio). We will use him throughout our entire program for years to come, and the daughters are looking equally impressive.

This is the flush sister to the Lots 1-3 bulls at the front of this sale book. She has elite growth genetics with top 1% breed ranks for WW and YW EPD and still top 15% for CED. Her donor dam has an elite genetic profile as well and is most known for her first calf, Roseda Powerball23 F091, that went on to sire the \$200,000 EXAR Cover the Bases 0819B and the \$130,000 44 Hayday 008. This female has an excellent phenotype where she's deep made, level hiped, and has quality front end design.

Due to calve 2/24/25 to VAR Home Town 1026
